DETAILED ACTION

Response to Arguments/Remarks

- Applicant remarks filed on 2/8/06 is fully considered. Statutory Double Patenting rejection previously made is hereby withdrawn due to the wrong sets of claims published in the patent 6,655,379 used for the rejection.
- This notice hereby withdraws the Notice of Allowance mailed on 2/22/06.
- Applicant is requested to respond to the restriction requirement below in the future remarks.

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:
species 1: figure 1: claims 30,37,41,46,32; species 2: figure 3: claims 29,32,34,36,45,51; species 3: figure 6: claims 26; species 4: figure 7: claims 27. The species are independent or distinct because species 1 requires blister, which is not required by other species; species 2 requires dry powder, which is not required by other species, species 3 and 4 require different valve structure that is not required by other species; and species 3 and 4 are distinct by the function of the valve, see claims 26 and 27.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 23-25,28,31,33,25,38,39,42-44,47-50 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3743

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
